Facility 1 -- St. Luke's Magic Valley Regional Medical

Part V, Section B, line 3:

A series of interviews with and surveys (questionnaires) of community representatives and leaders representing the broad interests of our community were conducted in order to assist us in defining, prioritizing and understanding our most important community needs. Many leaders that participated in our process are individuals who have devoted decades to helping others lead healthier and more independent lives. All of the leaders we interviewed have significant knowledge of our community. To ensure they came from distinct and varied backgrounds, we included multiple representatives from each of these categories:

Category I: Persons with special knowledge of or expertise in
public health

Category II: Federal, Regional, State, or Local health or other
departments or agencies (with current data or other
information relevant to the health needs of the community
served by the hospital)

Category III: Leaders, representatives, or members of medically
underserved, low income, and minority populations, and

populations with chronic disease needs

Each potential need was scored by the community representative on a scale

of 1 to 10. Higher scores represent potential needs the community

representatives believed were important to address with additional

resources. Lower scores usually meant our leaders thought our community

was healthy in that area already or had relatively good programs

addressing the potential need. These scores were incorporated directly

into our health need prioritization process. In addition, we invited the

leaders to suggest programs, legislation, or other measures they believed to

be effective in addressing the needs.

Next we examined whether it would be effective and efficient for St.

Luke's Magic Valley Regional Medical Center (SLMV) to address each

significant health need directly. To make this determination, we reviewed

the resources we had available and determined whether the health need was

in alignment with our mission and strengths. Where a high priority need

was not in alignment with our mission and strengths, SLMV tried to identify

a community group or organization better able to serve the need.

Significant community health needs not addressed by SLMV are as follows:

(1) Safe Sex Education

SLMV will not directly provide safe-sex education programs because

this need has a low alignment with our mission and strengths and

due to resource constraints we will instead focus on higher priority

needs. SLMV will rely on South Central District Health and other

community resources to help us address this need.

(2) Children and family services

SLMV will not develop its own children and family support services

program because this need has a low alignment with our mission and

strengths. However, because this need is ranked above the median SLMV

will support the community-based children and family services program

described in our implementation plan.

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 1j, 3, 4, 5d, 6i, 7, 10, 11, 12i, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22. If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A," "Facility B," etc.

(3) Education support and assistance

SLMV will not develop its own education and support assistance programs because this need has a low alignment with our mission and strengths. However, we do provide training and education to the College of Southern Idaho as described in our implementation plan.

Facility 2 -- St. Luke's Jerome

Part V, Section B, line 3:

A series of interviews with and surveys (questionnaires) of community representatives and leaders representing the broad interests of our community were conducted in order to assist us in defining, prioritizing, and understanding our most important community needs. Many leaders that participated in our process are individuals who have devoted decades to helping others lead healthier and more independent lives. All of the leaders we interviewed have significant knowledge of our community. To ensure they came from distinct and varied backgrounds, we included multiple representatives from each of these categories:

Category I: Persons with special knowledge of or expertise in public health

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 1j, 3, 4, 5d, 6i, 7, 10, 11, 12i, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22. If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A," "Facility B," etc.

Category II: Federal, Regional, State, or Local health or other

departments or agencies (with current data or other information relevant to the health needs of the community served by the hospital)

Category III: Leaders, representatives, or members of medically

underserved, low income, and minority populations, and populations with chronic disease needs

Each potential need was scored by the community representative on a scale of 1 to 10. Higher scores represent potential needs the community representatives believed were important to address with additional resources. Lower scores usually meant our leaders thought our community was healthy in that area already or had relatively good programs addressing the potential need. These scores were incorporated directly into our health need prioritization process. In addition, we invited the leaders to suggest programs, legislation, or other measures they believed to be effective in addressing the needs.

The following community leaders/representatives were contacted:

- (1) College of Southern Idaho
- (2) College of Southern Idaho Office on Aging
- (3) Family Health Services
- (4) Idaho Department of Health and Welfare
- (5) Jerome Recreation District
- (6) Jerome School District

Next we examined whether it would be effective and efficient for

St. Luke's Jerome, as a critical access hospital, to address each

significant health need directly. To make this determination, we

reviewed the resources we had available and determined whether the

health need was in alignment with our mission and strengths. Where a

high priority need was not in alignment with our mission and strengths,

St. Luke's Jerome tried to identify a community group or organization

better able to serve the need.

Significant community health needs not addressed by St. Luke's Jerome

are as follows:

(1) Safe Sex Education

St. Luke's Jerome will not directly provide safe-sex education

programs because this need has a low alignment with our mission

and strengths and due to resource constraints we will instead focus

on higher priority needs. St. Luke's will rely on South Central

District Health and other community resources to help us address

this need.

(2) Substance Abuse

Part V Facility Information (continued)

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 1j, 3, 4, 5d, 6i, 7, 10, 11, 12i, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22. If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A," "Facility B," etc.

St. Luke's Jerome will not directly provide substance abuse programs because this need has a low alignment with our mission and strengths and due to resource constraints we will instead focus on higher priority needs.

(3) Respiratory disease

As a critical access hospital, St. Luke's Jerome will rely on St. Luke's Magic Valley to provide respiratory programs for our community for three primary reasons:

- (1) resource constraints inherent with being a Critical Access Hospital,
- (2) the need is not a 20th percentile, and
- (3) meeting this need is a low strength for St. Luke's Jerome.

As a Critical Access hospital, we have chosen to focus our limited resources on higher priority needs.

(4) Suicide

Because this is not a top 20th percentile need and has a low strength and mission alignment, we will rely on community based resources to help meet this need. St. Luke's Jerome will partner with St. Luke's Magic Valley to provide a behavioral clinic as described in our Implementation Plan.

Part V Facility Information (continued)

Section C. Supplemental Information for Part V, Section B. Provide descriptions required for Part V, Section B, lines 1j, 3, 4, 5d, 6i, 7, 10, 11, 12i, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22. If applicable, provide separate descriptions for each facility in a facility reporting group, designated by "Facility A," "Facility B," etc.

(5) Affordable Dental Care

St. Luke's Jerome will not directly provide an affordable dental care program because this need is not aligned with our mission and strengths. However, this need is ranked above the median and St. Luke's will partner with the community to help address the dental health needs. A program description is included in our implementation plan.

(6) Children and family service

Due to resource constraints, St. Luke's Jerome will not develop its own children and family support program because this need has a low alignment with our mission and strengths.

- 7 **State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

Part I, Line 3c:

Explanation:

(A) St. Luke's does provide charity care services to patients who

meet one or both of the following guidelines based on income

and expenses:

1. Income. Patients whose family income is equal to or less than

400% of the then current Federal Poverty Guideline are eligible

for possible fee elimination or reduction on a sliding scale.

2. Expenses. Patients may be eligible for charity care if his or

her allowable medical expenses have so depleted the family's

income and resources that he or she is unable to pay for eligible

services. The following two qualifications must apply:

a. Expenses-The patients allowable medical expenses must be

greater than 30% of the family income. Allowable medical

expenses are the total of the family medical bills that,

if paid, would qualify as deductible medical expenses for

Federal income tax purposes without regard to whether the

Part VI Supplemental Information (Continuation)

expenses exceed the IRS-required threshold for taking the deduction. Paid and unpaid bills may be included.

b. Resources-The patient's excess medical expenses must be greater than available assets. Excess medical expenses are the amount by which allowable medical expenses exceed 30% of the family income. Available assets do not include the primary residence, the first motor vehicle, and a resource exclusion of the first \$4,000 of other assets for an individual, or \$6,000 for a family of two, and \$1,500 for each additional family member.

(B) Service Exclusions:

1. Services that are not medically necessary (e.g. cosmetic surgery) are not eligible for charity care.
2. Eligibility for charity care for a patient whose need for services arose from injuries sustained in a motor vehicle accident where the patient, driver, and/or owner of the motor vehicle had a motor vehicle liability policy, and only if a claim for payment has been properly submitted to the motor vehicle liability insurer, where applicable.

(C) Eligibility Approval Process:

1. St. Luke's screens patients for other sources of coverage and eligibility in government programs. St. Luke's documents the results of each screening. If St. Luke's determines that a patient is potentially eligible for Medicaid or another government program, then St. Luke's shall encourage the patient to apply for such a program and shall assist the patient in applying

Part VI Supplemental Information (Continuation)

for benefits under such a program.

2. The patient must complete a Financial Assistance Application and
provide required supporting documentation in order to be eligible.

3. St. Luke's verifies reported family and compares to the latest
Poverty Guidelines published by the U.S. Department of Health
and Human Services.

4. St. Luke's verifies reported assets.

5. St. Luke's provides a written notice of determination of
eligibility to the patient or the responsible party within
10 business days of receiving a completed application and the
required supporting documentation.

6. St. Luke's reserves the right to run a credit report on all
patients applying for charity care services.

(D) Eligibility Period. The determination that an individual is approved
for charity care will be effective for six months from the date the
application is submitted, unless during that time the patient's
family income or insurance status changes to such an extent that
the patient becomes ineligible.

Part I, Line 6a:

Explanation:

St. Luke's Magic Valley Regional Medical Center, Ltd. does not include the
activities of any of its other related organizations within its community
benefit report.

Part I, Line 7:

Explanation:

Part VI Supplemental Information (Continuation)

The cost to charge ratio was used for the calculation of charity care at
cost, unreimbursed Medicaid and other means-tested programs.

Part I, Ln 7 Col(f):

Explanation:

Bad Debt is defined as expenses resulting from services provided to a
patient and/or guarantor who, having the requisite financial resources to
pay for health care services, has demonstrated an unwillingness to do so.

Amount of bad debt expense included in Part IX, line 25, is \$29,285,077.

Part II, Community Building Activities:

Explanation:

The community building activities for St. Luke's Magic Valley Regional
Medical Center, Ltd. include the following:

Economic Development:

Cash donation to Community Connections to fund needed programs in the
community and meetings with Planning and Zoning to discuss future
development.

Community Support:

Select members of St. Luke's Magic Valley staff went through intense
disaster readiness training in order to be ready for any disaster that
occurs in the region. They took this knowledge and implemented disaster
readiness policy and procedure throughout the hospital.

Coalition Building:

Activities for Coalition Building include involvement of physician

in:

-Chamber of Commerce Leadership

-Tobacco-Free Coalition

-State Board of Medicine

-IMA-President of South Central Idaho

Community Health Improvement Advocacy:

Expenses represent the continued support for Serenity Garden project.

The Serenity garden Project was established on June 6, 2009 to provide a dignified burial for fetal remains and give the community a place to visit and grieve their loss.

Physician meetings with Genesis Group and county commissioners were held to discuss the Mustard Tree Wellness Clinic operations and funding.

Physician meetings with governor and legislators were held to discuss legalization of marijuana and meetings with Idaho Board of Corrections.

Other:

These are expenses incurred by the organization's staff for implementing and tracking community benefit operations.

Part VI Supplemental Information (Continuation)

Part III, Line 4:

Explanation:

St. Luke's Magic Valley Regional Medical Center, Ltd. grants credit without collateral to its patients, most of whom are local residents and many of whom are insured under third-party agreements. The allowance for estimated uncollectible amounts is determined by analyzing both historical information (write-offs by payor classification), as well as current economic conditions.

Part III, Line 8:

Explanation:

100% of the shortfall in Medicare reimbursement is considered a community benefit. St. Luke's Magic Valley Regional Medical Center, Ltd. provides medical care to all patients eligible for Medicare regardless of the shortfall and thereby relieves the Federal Government of the burden for paying the full cost of Medicare.

The source of the information is the Medicare Cost Report for fiscal year 2014. The amount is calculated by comparing the total Medicare apportioned costs (allowable costs) to reimbursements received during FY'14.

It should be noted that the unreimbursed costs reported within this schedule are significantly less than the amount reported in the annual Community Benefit Report to Twin Falls County ("County"). In the report to the County, unreimbursed costs include program costs allocated to the Medicare Advantage program, along with costs that offset the provider-based physician clinic operations; i.e. professional component billing for physician time and effort. The Medicare Cost Report does not include these

Part VI Supplemental Information (Continuation)

components.

In addition, the report to the County includes all allocated costs to the Medicare Programs, whereas the Medicare Cost Report reports allowable costs only.

Part III, Line 9b:

Explanation:

All subsidiaries within the St. Luke's Health System have policies in place to provide financial assistance to those who meet established criteria and need assistance in paying for the amounts billed for their provided health care services. In addition, the collection policies and practices in place within the St. Luke's Health system provide guidance to patients on how to apply for this assistance. Collection of amounts due may be pursued in cases where the patient is unable to qualify for charity care or financial assistance and the patient has the financial resources to pay for the billed amounts.

Part VI, Line 2:

Explanation:

A Community Health Needs Assessment (CHNA) was conducted for fiscal year ending 9/30/2013. Information related to the 2013 CHNA is shown in the responses to questions 3 and 7 of "Part V, Section B, Facility Policies and Practices".

A complete copy of the CHNA assessments for all of the hospitals operating within the St. Luke's Health System can be found at the following website:

Part VI, Line 3:

Explanation:

(A) St. Luke's Magic Valley Regional Medical Center provides notice of
the availability of financial assistance via:

1. Signage
2. Patient brochure
3. Billing Statement
4. Written collection action letter
5. Online at www.stlukesonline.org/billing

(B) All notices are translated into the following language: Spanish

(C) St. Luke's provides individual notice of the availability of
financial assistance to a patient expected to incur charges that may
not be paid in full by third party coverage, along with an estimate
of the patient's liability.

(D) For cases in which St. Luke's independently determines patient
eligibility for financial assistance, St. Luke's provides written
notice of determination that the patient is or is not eligible within
10 business days of receiving a completed application and the
required supporting documentation.

Part VI, Line 4:

Schedule H (Form 990)

Part VI Supplemental Information (Continuation)

Explanation:

St. Luke's Magic Valley Regional Medical Center provides services for eight counties of south central Idaho and Elko County, Nevada. The primary service area consists of Gooding, Jerome, and Twin Falls Counties. The criteria used in selecting this area as the community served was to include the entire population of the counties where greater than 85% of the inpatients reside. The residents of these counties comprise about 90% of the inpatients with approximately 68% of the inpatients living in Twin Falls County, 15% in Jerome County, and 8% in Gooding County. All three counties are part of Idaho Health District 5.

Both Idaho and the primary service area are comprised of about a 95% white population while the nation as a whole is 72% white. The Hispanic population in Idaho represents 11% of the overall population and about 19% of the defined service area. Gooding County is approximately 28% Hispanic, Jerome County 31%, and Twin Falls County is 14% Hispanic.

Idaho experienced a 21% increase in population from 2000 to 2010 ranking it as the fourth fastest growing state in the country. The service area followed that trend experiencing a 19% increase in population within that timeframe and is expected to grow by an additional 17% by the year 2020.

St. Luke's Magic Valley is constantly working to manage the volume and scope of its services in order to meet the needs of an increasing population.

Over the past ten years the 45 to 64 year old age group was the fastest growing segment of our community. Over the next ten years, however, the 0 to 19 year old age group is expected to grow by about 25% making it the

Part VI Supplemental Information (Continuation)

fastest growing segment. Currently, about 14% of the people in the community are over the age of 65 and by 2020 about the same percentage of our population is expected to be over the age of 65.

The official United States poverty rate increased from 12.5% in 2003 to 15.3% in 2010. The poverty rate for the primary service area has increased more than the national average since 2003. In 2003 it was at the national average and by 2010 it was above the national average at over 16%. The poverty rate in the community for children under the age of 18 is 20.9%, which is about the same as the national average.

Median income in the United States has risen by 8% since 2005. Growth in income was slower in Idaho but a little faster in our service area during that period. However, median income in the primary service area is well below the national median and lower than the median income for Idaho as well.

Part VI, Line 5:

Explanation:

The people who serve on the various boards for subsidiaries within the St. Lukes Health System are local citizens who have a vested interest in the health of their communities. These committed leaders volunteer on our boards because they are dedicated to ensuring that the people of southern Idaho and the surrounding area have access to the most advanced, most comprehensive health care possible. St. Luke's believes that locally owned and governed hospitals can take the best measure of community health care needs. We are grateful to our board leadership for giving generously of their time and talents and bringing to the table their unique perspectives

Part VI Supplemental Information (Continuation)

and intimate knowledge of their communities. St. Luke's would not be the organization it is today without our volunteer board members. The vision of dedicated community leaders has guided St. Luke's for many decades, and will continue to guide us well into the future.

As a not-for-profit organization, 100% of St. Luke's revenue after expenses is reinvested in the organization to serve the community in the form of staff, buildings, or new technology.

Also, St. Luke's Magic Valley Regional Medical Center, Ltd. (SLMV) maintains an open medical staff. Any physician can apply for practicing privileges as long as they meet the standards for SLMV.

Part VI, Line 6:

Explanation:

As the only Idaho-based not-for-profit health system, St. Luke's Health System is part of the communities we serve, with local physicians and boards who further our organization's mission "To improve the health of the people in our region." Working together, we share resources, skills, and knowledge to provide the best possible care, no matter which of our hospitals provide that care. Each St. Luke's Health System hospital is nationally recognized for excellence in patient care, with prestigious awards and designations reflecting the exceptional care that is synonymous with the St. Luke's name.

St. Luke's Health System provides facilities and services across the region, covering a 150-mile radius that encompasses southern and central Idaho, northern Nevada, and eastern Oregon—bringing care close to home and

As part of its overall physician recruiting program, St. Luke's will

offer various incentives for employment, including:

(1) Net Income Guarantee

(2) Housing Assistance

(3) Relocation Assistance

(4) Tail Coverage for Malpractice Claims, and

(5) Sign-on Bonus

These incentives are structured as a physician loan to the prospective

employee, bearing a reasonable rate of interest reflecting market

conditions. As the physician fulfills the terms of the employment

agreement, the amount advanced is forgiven over the term of the loan. If

the physician does not fulfill the terms of the agreement, the physician

must repay a liquidated damages amount specified in the loan agreement.

The transitional apartment is a fully functional apartment in which patients can practice basic activities of daily living under the supervision of a trained therapist.

The activity area offers a place for patients and their visitors to gather and engage in therapeutic recreation.

During FY'14, the inpatient rehabilitation unit provided qualified inpatient care for 208 admissions covering 2,671 patient days.

Form 990, Part VI, Section A, line 2:

Explanation:

Board members Tom Ashenbrenner, Steve Westfall, and Becky Nelson are in a business relationship.

Form 990, Part VI, Section A, line 4:

Explanation:

Effective April 1, 2014, the overall governance structure for the St. Luke's Health System was reorganized into two governing regions, with St. Luke's Health System, Ltd. having overall fiduciary oversight over two regions. The reorganization is described as follows:

(1) St. Luke's Western Region, consisting of the following legal entities:

Name of the organization St. Luke's Magic Valley Regional Medical Center, Ltd.	Employer identification number 56-2570686
--	---

--St. Luke's Regional Medical Center, Ltd. (SLRMC)

--Mountain States Tumor Institute, Inc. (MSTI)

--St. Luke's McCall, Ltd. (SLM)

(2) St. Luke's Eastern Region, consisting of the following legal

entities:

--St. Luke's Magic Valley Regional Medical Center, Ltd. (SLMV)

--St. Luke's Wood River Medical Center, Ltd. (SLWR)

As a result of these changes, the governing boards for SLRMC and SLMV also serve as the fiduciary boards over the other legal entities within their respective regions. The bylaws of all these organizations have been changed accordingly and are described in the explanations for line 7b within Part VI of this return. It should be noted that community boards for SLM and SLWR have been chartered by their fiduciary boards, with each chairperson of these boards also serving as a member on the chartering fiduciary board. Having these additional local boards will insure that the communities have involvement with the operations of their respective hospital organizations, as well as to make sure the overall health needs of their communities are addressed.

It should be noted, however, that the overall legal entity structure and sole member relationships are unchanged, as described in Form 990, Schedule R.

(d) Removal of an individual from the Corporation's Board of Directors if and when removal is requested by the Corporation's Board of Directors, which request may only be made if the Director is failing to meet the reasonable expectations for service on the Corporation's Board of Directors that are established by the Member and are uniform for the Corporation and for all of the other hospitals for which the Member then serves as the sole corporate member.

(e) Approval of operating and capital budgets of the Corporation, and deviations to an approved budget over the amounts established from time to time by the Member; and

(f) Approval of the strategic/tactical plans and goals and objectives of the Corporation.

Implementation Authority means those actions which the Member may take without the approval or recommendation of the Corporation. This authority will not be utilized until there has been appropriate communication between the Member and the Corporation's Board of Directors and its Chief Executive Officer. Actions requiring implementation authority include:

(a) Changes to the Statements of mission, philosophy, and values of the Corporation;

(b) Removal of an individual from the Corporation's Board of Directors if and when the Member determines in good faith that the Director is failing to meet the Approved Board of Member Expectations. This

authority to remove Directors shall not be used merely because there is a difference in business judgment between the Director and the Corporation or the Member, and shall never be used to remove one or more Directors from the Corporation's Board of Directors in order to change a decision made by the Corporation's Board of Directors;

(c) Employment and termination of the Chief Executive Officer of the Corporation;

(d) Appointment of the auditor for the Corporation and the coordination of the Corporation's annual audit;

(e) Sales, lease, exchange, mortgage, pledge, creation of a security interest in or other disposition of real or personal property of the Corporation if such property has a fair market value in excess of a limit set from time to time by the Member and that is not otherwise contained in an Approved Budget;

(f) Sale, merger, consolidation, change of membership, sale of all or substantially all of the assets of the corporation, or closure of any facility operated by the Corporation;

(g) The dissolution of the Corporation;

(h) Incurrence of debt by or for the Corporation in accordance with requirements established from time to time by the Member and that is not otherwise contained in an Approved Budget; and

(i) Authority to establish policies to promote and develop an integrated, cohesive health care delivery system across all corporations for which the Member serves as the corporate member.

Form 990, Part VI, Section B, line 11:

Explanation:

The Form 990(Form)is reviewed by an independent public accounting firm based on audited financial statements and with the assistance of the organization's finance and accounting staff. The final draft of the Form is made available to the Finance Committee of the Board of Directors. The Board receives the final version of the Form prior to filing.

Form 990, Part VI, Section B, Line 12c:

Explanation:

The organization annually reviews the conflict of interest policy with each board member and also with new board members. Persons covered under the policy include officers,directors,senior executives,non-director members of Board committees and others as identified by a senior executive. At all levels the board is responsible for assessing,reviewing,and resolving any conflicts of interest that have been disclosed by a covered person,or a conflict of interest disclosed by a covered person with respect to a covered person other than himself/herself. Where a conflict exists,the affected parties must recuse themselves from participating in any discussion related to the conflict.

Form 990, Part VI, Section B, Line 15:

Explanation:

Executive compensation is set by St. Luke's board of directors and is

reviewed annually. Compensation levels are based on an independent analysis of comparable pay packages offered at similar institutions across the country, with the goal of placing executives in the 50th percentile of those surveyed. These surveys are usually done every two years, with the most recent compensation survey completed during calendar year 2014.

St. Luke's Health System is committed to providing the highest quality medical care to all people regardless of their ability to pay.

To keep that commitment, St. Luke's puts a great deal of time and effort into recruiting and retaining the top physicians in a variety of medical fields. Our relationships with physicians range from having privileges at the hospital to full employment.

For those physicians who choose to be employed, St. Luke's must offer competitive pay and benefits.

Physician compensation is based on a range of criteria and can be influenced by a number of variables including:

- Community need for medical specialty
- Experience
- Productivity
- Geography
- National surveys adjusted for local conditions
- Willingness to serve regardless of patients' ability to pay
- Duration of relationship and contractual terms
- Performance on quality metrics

Name of the organization St. Luke's Magic Valley Regional Medical Center, Ltd.	Employer identification number 56-2570686
--	---

To ensure physician compensation and benefits remain within industry standards and legal requirements for not-for-profit institutions, St. Luke's has a Physician Arrangements policy that specifies circumstances requiring a third-party valuation and also periodically uses third-party consulting firms to review St. Luke's physician compensation arrangements.

Given the growing national shortage of physicians, recruiting and retaining physicians is more critical than ever to guarantee that people seeking care at St. Luke's will continue to have access to the physicians and specialists they need regardless of their insurance status or insurance provider.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
St. Luke's Health System, Ltd.
Boise, Idaho

We have audited the accompanying consolidated financial statements of St. Luke's Health System, Ltd. and its subsidiaries (the "Health System"), which comprise the consolidated balance sheets as of September 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets, and of cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Health System's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Health System's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of St. Luke's Health System, Ltd. and its subsidiaries as of September 30, 2014 and 2013, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Disclaimer of Opinion on Charity Care Schedule

The charity care schedule summarized in Note 1, which is the responsibility of the Health System's management, is not a required part of the basic financial statements, and we did not audit or apply limited procedures to such information and we do not express any assurances on such information.

ST. LUKE'S HEALTH SYSTEM, LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013 (In thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization—St. Luke's Health System, Ltd. and subsidiaries (the "Health System") is an Idaho-based not-for-profit organization providing a comprehensive health care delivery system to the communities served. The Health System's general offices are located in Boise, Idaho. The Health System is governed by volunteer boards made up of local citizens.

The Health System's primary hospitals and service areas are located within the State of Idaho in Boise, Meridian, Nampa, Twin Falls, Mountain Home, McCall, Nampa, Jerome, and Ketchum and have other facilities and operations throughout Southern Idaho and Eastern Oregon.

Basis of Presentation—The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Intercompany transactions have been eliminated.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates include the useful lives of depreciable assets, liabilities associated with employee benefit programs, self-insured professional liability risks not covered by insurance and potential settlements with the Medicare and Medicaid programs. In addition, valuation reserve estimates are made regarding the collectability of outstanding patient and other receivables.

Changes in estimates are included in results of operations in the period when such amounts are determined and actual amounts could differ from such estimates.

Statements of Operations—Transactions deemed by management to be ongoing, major, or central to the provision of health care services are reported as unrestricted revenues, gains and other support and expenses.

Temporarily and Permanently Restricted Net Assets—Temporarily restricted net assets are those whose use by the Health System is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Health System pursuant to those stipulations. Permanently restricted net assets are assets whose use by the Health System is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed.

Donor Restricted Gifts—Unconditional promises to give cash (pledges receivable) and other assets are recorded at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction

ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of operations as net assets released from restrictions. Total pledges receivable, net of allowances, as of September 30 are as follows:

	2014	2013
Less than one year	\$ 871	\$ 227
One to five years	1,067	2,648
More than five years	<u>507</u>	<u>43</u>
	2,445	2,918
Less allowance for estimated uncollectible accounts	<u>226</u>	<u>226</u>
Total pledges receivable	<u>\$2,219</u>	<u>\$2,692</u>

Cash and Cash Equivalents—Cash represents cash on hand and cash in banks, excluding amounts whose use is limited and consists primarily of cash and highly liquid investments with original maturities of three months or less. As of September 30, 2014 and 2013, the Health System had book overdrafts of \$7,053 and \$9,901, respectively, at one institution that is included in accounts payable and accrued liabilities.

Inventories—Inventories consist primarily of medical and surgical supplies and are stated at the lower of cost (on a moving-average basis) or market.

Investments and Investment Income—The Health System’s long-term and short term investment portfolios are managed according to investment policies adopted by the Health System and based on overall investment objectives. Board designated funds are investments established by the Board for strategic future capital or operating expenditures intended to expand or preserve services provided to the communities it serves. All investments are recorded using settlement date accounting. Investment income and gains (losses) on investments whose use has not been restricted by the donor, including unrestricted income from endowment funds, are reported as part of investment income. Investment income and gains (losses) on investments whose income has been restricted by the donor are recorded as increases (decreases) to temporarily or permanently restricted net assets.

The Health System’s investments primarily include mutual funds and debt securities that are carried at fair value. The Health System evaluates whether securities are other-than-temporarily impaired (OTTI) based on criteria that include the extent to which cost exceeds market value, the duration of the market decline, the credit rating of the issuer or security, the failure of the issuer to make scheduled principal or interest payments and the financial health and prospects of the issuer or security. Any declines in the value of investment securities determined to be OTTI are recognized in earnings and reported as OTTI losses. The Health System determined that no securities were OTTI as of September 30, 2014 and 2013.

Assets Whose Use is Limited—Assets whose use is limited include assets set aside by the Board of Directors for future capital purposes over which the Board retains control and may, at its discretion, subsequently be used for debt retirement or other purposes. It also includes assets held by trustee under indenture agreements, assets restricted by donors for specific purposes and permanent endowment funds.

Property, Plant, and Equipment—Property, plant, and equipment are recorded at cost with the exception of donated assets, which are recorded at fair value at the date of donation. Property and equipment donated for Health System operations are recorded as additions to property, plant, and

equipment when the assets are placed in service. Depreciation is computed using the straight-line method over the estimated useful lives of the depreciable assets with depreciation taken in both the year placed in service and the year of disposition.

The estimated useful lives of each asset ranges are as follows:

Buildings	15–40 years
Fixed and major movable equipment	2–20 years
Leasehold improvements	5–15 years

Expenditures for maintenance and repairs are charged to expense as incurred and expenditures for renewals and betterments are capitalized. Upon sale or retirement of depreciable assets, the related cost and accumulated depreciation are removed from the records and any gain or loss is reflected in the statement of operations. Periodically, the Health System evaluates the carrying value of property, plant, and equipment for impairment based on undiscounted operating cash flows whenever significant events or changes occur which might impact recovery of recorded assets.

Goodwill—Goodwill represents the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognized. Goodwill is not amortized, but is subject to annual impairment testing at the reporting unit level. A reporting unit is defined as a component of an organization that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed for decision making purposes and for which discrete financial information is available.

The quantitative impairment testing for goodwill includes a two-step process consisting of identifying a potential impairment loss by comparing the fair value of the reporting unit to its carrying amount, including goodwill and then measuring the impairment loss by comparing the implied fair value of the goodwill for a reporting unit to its carrying value. The fair value is estimated based upon internal evaluations of the related long-lived assets for each reporting unit and can include comparable market prices, quantitative analyses of revenues and estimated future net cash flows. If the fair value of the reporting unit assets is less than their carrying value including goodwill, an impairment loss is recognized.

In addition to annual impairment review, impairment reviews are performed whenever circumstances indicate a possible impairment may exist.

Meaningful Use—The Health System accounts for Electronic Health Records (EHR) incentive payments in accordance with ASC 450-30, *Gain Contingencies* (“ASC 450-30”). In accordance with ASC 450-30, the Health System recognizes a gain for EHR incentive payments when its eligible hospitals and physician practices have demonstrated meaningful use of certified EHR technology for the applicable period and when the final calculation of the EHR incentive payment is available. The demonstration of meaningful use is based on meeting a series of objectives and varies among hospitals and physician practices, between the Medicare and Medicaid programs and within the Medicaid program from state to state. Additionally, meeting the series of objectives in order to demonstrate meaningful use becomes progressively more stringent as its implementation is phased in through stages as outlined by the Centers for Medicare and Medicaid Services.

For the years ended September 30, 2014 and 2013 respectively, the Health System recognized \$4,366 and \$8,362 in EHR incentive payments in accordance with the HITECH Act under the Medicaid program. These payments are included in other revenue.

The Health System incurs both capital expenditures and operating expenses in connection with the implementation of its various EHR initiatives. The amount and timing of these expenditures does not directly correlate with the timing of the Health System's receipt or recognition of the EHR incentive payments.

Land and Buildings Held for Future Investment or Future Expansion—Land and buildings held for investment or future expansion represents land and buildings purchased or donated to the Health System for future operations and are not included in the Health System operations.

Costs of Borrowing—Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Financing costs are deferred and amortized over the life of the bonds.

Investment in Affiliates—The Health System has entered into certain joint ventures and affiliations with other health care providers. The Health System accounts for the joint ventures and affiliations based on the equity method of accounting when it has significant influence. The Health System's share of income or loss is reported as increases or decreases in the respective investment with a corresponding amount reported in income or loss on equity interest in joint ventures.

As of September 30, 2014, significant joint ventures and affiliations include the following:

- St. Luke's Idaho Elks Rehabilitation Services, an equally owned joint venture with Idaho Elks Rehabilitation Hospital, Inc. to provide outpatient rehabilitation services
- Idaho Cytogenetics Diagnostic Laboratory, LLC, an equally owned joint venture with Saint Alphonsus Diversified Care, Inc. to promote general health and cytogenetic diagnostic services

Net Patient Service Revenue—Net patient service revenue before provision for bad debts is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Charity Care—The Health System provides services to all patients regardless of their ability to pay in accordance with its charity care policy. The estimated cost of providing these services was \$34,129 and \$23,997 in 2014 and 2013, respectively, calculated by multiplying the ratio of cost to gross charges for the Health System by the gross compensated charges associated with providing care to charity patients.

In addition to charity care services, the Health System provides services to patients who are deemed indigent under state Medicaid and county indigency program guidelines. In most cases, the cost of services provided to these patients exceeds the amounts received as compensation from the respective programs. In addition, in response to broader community needs, the Health System also provides many programs such as health screening, patient and health education programs, clinical and biomedical services to outlying hospitals, and serves as a clinical teaching site for higher education programs of health professionals. The following unaudited schedule summarizes the charges forgone in accordance with the Health System's charity care policy, the unpaid costs associated with services provided under Medicare, Medicaid, and county indigency programs, and the benefit of services provided to support broader community needs:

	<u>Unaudited</u>	
	<u>2014</u>	<u>2013</u>
Estimated unpaid costs of services provided under Medicare, Medicaid, and county indigency programs	\$ 227,638	\$ 190,778
Estimated benefit of services to support broader community needs	29,103	29,431

Income Taxes—The Health System is a not-for-profit corporation and is recognized as tax-exempt pursuant to Section 501(c)(3) of the Internal Revenue Code.

Unrelated Business Income—The Health System is subject to federal excise tax on its unrelated business taxable income (UBTI). As of September 30, 2014, the Company had approximately \$4,077 of UBTI Net Operating Losses from operating losses incurred from 2000 to 2014 which expire in years 2015 to 2029. The Health System does not believe that it is more likely than not they will utilize these losses prior to their expiration and as such has provided a full valuation allowance against these losses.

Recently Issued and New Accounting Pronouncements—In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (“ASU”) No. 2012-05, “*Statement of Cash Flows (Topic 230): Not-For-Profit Entities: Classification of the Sale Proceeds of Donated Financial Assets in the Statement of Cash Flows (ASU 2012-05)*.” ASU No. 2012-05 addresses the diversity in practice regarding the classification of cash receipts arising from the sale of certain donated financial assets, such as securities, in the statement of cash flows. ASU 2012-05 requires cash receipts from the sale of donated financial assets that are immediately converted to cash be classified as cash inflows from operating activities, unless the donor restricted the use of the contributed resources, in which case they would be classified as cash flows from financing activities. Otherwise, these cash receipts are to be classified as cash inflows from investing activities. The provisions of ASU 2012-05, which are to be applied prospectively were adopted by the Health System for the current fiscal year on October 1, 2013, and it did not have a material impact on the Health System's financial position, results of operations or cash flows.

In April 2013, the FASB issued ASU No. 2013-06, “*Services Received from Personnel of an Affiliate (ASU 2013-06)*.” ASU 2013-06 requires that contributed services be recognized at fair value if employees of separately governed affiliated entities regularly perform services for and under the direction of the donor. The scope includes all services received from personnel of any affiliate for which the affiliate does not seek compensation from the recipient not-for-profit and (1) create or enhance nonfinancial assets or (2) require specialized skills, are provided by individuals possessing those skills, and typically would need to be purchased if not provided by donation. Affiliates may include (1) other not-for-profits, (2) for-profit entities, (3) individuals, or (4) other parties that qualify as affiliates. The

provisions of ASU 2013-06 which are to be applied prospectively are applicable to the Health System for fiscal years beginning October 1, 2014. The Health System is currently evaluating the impact that adopting this standard will have on the Health System's financial position, results of operations or cash flows.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606) (ASU 2014-09)" that will result in substantial changes in revenue recognition under US GAAP. Under ASU 2014-09, revenue recognition requires the following: (1) Identifying the contract; (2) Identifying the performance obligations; (3) Determining the transaction price; (4) Allocating the transaction price to performance obligations; and (5) Recognizing revenue upon satisfaction of performance obligations. The Health System is required to adopt this guidance for fiscal years beginning October 1, 2018 with early adoption permitted for fiscal year ending September 30, 2018.

Subsequent Events—The Health System has evaluated subsequent events through January 27, 2015. This is the date the financial statements were available to be issued.

2. BUSINESS TRANSACTIONS

Medical Practices—In 2014 and 2013, the Health System acquired various family health and specialty medical practices located throughout its service area. As a result of the transactions, the Health System acquired receivables, inventory, fixed assets, non-compete agreements, goodwill, or other assets. Non-compete agreements are amortized on a straight-line basis over their expected lives of five to seven years.

In accordance with the purchase method of accounting, the acquired net assets were recorded at fair value as of the dates of the acquisition. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed from the acquisitions during the years ended September 30:

	2014	2013
Accounts receivable	\$ -	\$ 142
Inventory	-	305
Property	82	3,846
Goodwill and other intangible assets	103	13,151
Other assets	<u>-</u>	<u>168</u>
Purchase price	<u>\$ 185</u>	<u>\$ 17,612</u>

Transaction with Elmore—On April 1, 2013, The Health System completed a transaction with Elmore Medical Center. The transaction expanded the Health System's presence into Mountain Home, Idaho. As a result of the transaction, the name of the hospital was changed to St. Luke's Elmore. Prior to the transaction, Elmore Medical Center was wholly owned by the Elmore Medical Center Hospital District.

The determination of the estimated fair market value of the assets obtained and liabilities assumed required management to make certain estimates and assumptions. The transaction with Elmore Medical Center resulted in the assets obtained and liabilities assumed being recorded based on their estimated fair values on the transaction date. In 2013, an excess of assets obtained over liabilities assumed in the amount of \$20,646 was recorded in the consolidated statement of operations and changes in net assets representing the excess of the fair value of tangible and identifiable intangible assets obtained over liabilities assumed or other financial consideration given.

The results of operations are included in the Health System's consolidated financial statements beginning April 1, 2013. The following table presents the allocation of consideration given for the assets obtained and liabilities assumed:

Cash	\$ 1,343
Investments	6,162
Accounts receivable	3,316
Inventory	310
Prepays	151
Property	<u>10,865</u>
 Total assets obtained	 <u>22,147</u>
 Accounts payable and other accrued liabilities	 <u>(1,501)</u>
 Total liabilities assumed	 <u>(1,501)</u>
 Excess of assets obtained over liabilities assumed in transaction	 <u>\$20,646</u>

3. JOINT VENTURES

Combined financial information of the Health System's joint ventures as of and for the year ended September 30 are as follows:

	2014	2013
Total assets	\$ 7,812	\$ 9,852
Total liabilities	4,315	3,644
Total equity	3,497	6,208
Total revenues	14,088	15,522
Total income (loss)	(2,186)	(1)

4. NET PATIENT SERVICE REVENUE

The Health System has agreements with third-party payors that provide for payments to the Health System at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare—Inpatient acute and certain outpatient care services rendered to Medicare program beneficiaries are paid at prospectively determined rates based upon the service provided. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Inpatient nonacute services, certain other outpatient services, and defined capital and medical education costs related to Medicare beneficiaries are paid based on a cost reimbursement methodology.

The Health System is reimbursed for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the Health System and audits thereof by the Medicare fiscal intermediary. The Health System's classification of patients under the Medicare program and the appropriateness of their admission are subject to a review by a peer review organization under contract with the fiscal intermediary.

Medicaid—Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology. The Health System is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Health System and audits thereof by the Medicaid fiscal intermediary.

Changes in estimates are included in results of operations in the period when such amounts are determined. The Health System has an opportunity to amend previously settled cost reports. With regard to the amended cost reports, the Health System accrues settlements when amounts are probable and estimable.

Changes in prior year estimates decreased net patient service revenue by \$12,768 for fiscal year ended September 30, 2014 and increased net patient service revenue by \$1,973 for fiscal year ended September 30, 2013.

Other—The Health System has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the Health System under these agreements includes prospectively determined rates per patient day, per discharge and discounts from established charges.

The System records a provision for bad debts related to uninsured accounts to record the net self-pay accounts receivable at the estimated amounts the System expects to collect.

Patient service revenue (including patient co-pays and deductibles), net of contractual allowances and discounts (but before provision for uncollectible accounts) by primary payor source, for the year ended September 30 are as follows:

	2014	2013
Commercial payors, patients, and other	\$ 988,259	\$ 880,004
Medicare program	512,093	478,832
Medicaid program	<u>182,692</u>	<u>157,570</u>
	1,683,044	1,516,406
Less total provision for uncollectible accounts	<u>88,232</u>	<u>83,472</u>
	<u>\$1,594,812</u>	<u>\$1,432,934</u>

5. ACCOUNTS RECEIVABLE AND CONCENTRATION OF CREDIT RISK

The Health System grants credit without collateral to its patients, most of whom are local residents and many of whom are insured under third-party payor agreements. Accounts receivable, reflected net of any contractual arrangements, as of September 30 are as follows:

	2014	2013
Commercial payors, patients, and other	\$ 225,663	\$ 197,670
Medicare program	45,320	45,881
Medicaid program	25,425	17,304
Non-patient	<u>32,230</u>	<u>39,442</u>
	328,638	300,297
Less total allowance	<u>66,411</u>	<u>46,159</u>
	<u>\$ 262,227</u>	<u>\$ 254,138</u>

The allowance for estimated uncollectible accounts is determined by analyzing both historical information (write-offs by payor classification), as well as current economic conditions.

6. PROPERTY, PLANT, AND EQUIPMENT

Property, plant, and equipment as of September 30 are as follows:

	2014	2013
Land	\$ 48,111	\$ 47,720
Buildings, land improvements, and fixed equipment	907,982	818,396

	<u>\$ 913,121</u>	<u>\$ 901,363</u>

As of September 30, 2014 and 2013, the Health System had \$5,139 and \$10,013, respectively, of property, plant, and equipment purchases included in accounts payable and accrued liabilities.

Depreciation expense was \$98,637 and \$93,423 for the years ended September 30, 2014 and 2013, respectively.

7. ASSETS WHOSE USE IS LIMITED

Assets whose use is limited that will be used for obligations classified as current liabilities and the current portion of pledges receivable are reported in current assets. Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value, based on quoted market prices of identical or similar assets. The majority of the Health System's investments are managed by independent investment managers. The following table sets forth the composition of assets whose use is limited as of September 30:

	2014	2013
Board designated funds:		
Cash and cash equivalents	\$ 8,637	\$ 17,872
Certificates of deposit and commercial paper	-	350

	<u>\$ 24,098</u>	<u>\$ 22,159</u>

Investment income for assets limited as to use, cash equivalents, and other investments for the years ended September 30 are comprised of the following:

	2014	2013
Investment income:		
Interest income	\$ 6,273	\$ 6,893
Realized loss on sales of securities	<u>(2,191)</u>	<u>(2,689)</u>
	<u>\$ 4,082</u>	<u>\$ 4,204</u>
Change in net unrealized gain on investments	<u>\$ 489</u>	<u>\$ (2,029)</u>

In connection with the issuance of the certain bond obligations, the Health System is required to maintain a debt reserve fund. The debt reserve fund is to be used for the payment of principal and interest at maturity. The amount held in the debt reserve fund as of September 30, 2014, related to the Series 2008A Bonds, is \$16,498 (which includes \$3,124 to be paid over the next 12 months). This amount is included in restricted funds. Amounts held in custody, to be paid over the next 12 months, for the Series 2000 and 2005 Bonds are \$1,714 and \$1,963 respectively. These amounts are also included in restricted funds.

Proceeds received from the Series 2012A Bonds are restricted to qualified expenditures related to a facility project of the Health System and are held by the Series 2012A Bond Trustee in a Construction Fund. Initial deposits into the Construction Fund were \$75,521. As of September 30, 2014, the balance remaining in the fund was \$1,001.

Proceeds received from the Series 2014A Bonds are restricted to qualified expenditures related to a facility project of the Health System and are held by the Series 2014A Bond Trustee in a Construction Fund. Initial deposits into the Construction Fund and the remaining balance as of September 30, 2014 was \$174,947.

8. TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS

Obligations to Idaho Health Facility Authority

Series 2000—Represents Fixed Rate Revenue Bonds, payable in annual payments ranging from \$2,800 to \$29,700, beginning July 2011 through July 2030. The Series 2000 bonds bear interest at a fixed rate ranging from 2.00% to 5.00% per annum calculated on the basis of a 360 day year comprised on 12 30-day months and are payable on July 1 and January 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2014 was 4.85%.

The Series 2000 bonds maturing on or after July 1, 2021, are subject to redemption prior to maturity at the option of the Health System.

The Series 2000 Bonds are secured with a mortgage on the Health System's hospital located in Boise, Idaho.

Series 2005—Represents Fixed Rate Revenue Bonds, payable in annual payments ranging from \$2,690 to \$51,710, beginning July 2011 through July 2035. The Series 2005 bonds bear interest at a fixed rate ranging from 2.00% to 5.00% per annum calculated on the basis of a 360 day year comprised on 12 30-day months and are payable on July 1 and January 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2014 was 4.67%.

The Series 2005 bonds maturing on or after July 1, 2021, are subject to redemption prior to maturity at the option of the Health System. In addition, Series 2005 bonds maturing on or after July 1, 2025, are subject to redemption prior to maturity at the option of the Health System on or after July 1, 2015.

The Series 2005 Bonds are secured with a mortgage on the Health System's hospital located in Boise, Idaho.

Series 2008A—Represents Fixed Rate Revenue Bonds, payable in annual payments ranging from \$1,130 to \$21,655 beginning November 2009 through 2037. The Series 2008A bonds bear interest at a fixed rate ranging from 4.00% to 6.75% per annum calculated on the basis of a 360 day year comprised of 12 30-day months and are payable on May 1 and November 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2014 was 6.68%.

The Series 2008A bonds maturing on or after November 1, 2019, are subject to redemption prior to maturity at the option of the Health System, on or after November 1, 2018.

Series 2012A—Represents Fixed Rate Revenue Bonds payable in annual payments ranging from \$23,780 to \$26,220, beginning March 2045 through March 2047. The Series 2012A Bonds bear interest at a fixed rate ranging from 4.50% to 5.00% per annum calculated based on a 360 day calendar year comprised of 12 30-day months and are payable on March 1 and September 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2014 was 5.24%.

The Series 2012A bonds are subject to redemption prior to maturity at the option of the Health System, on or after March 1, 2022.

Series 2012B—Represents Variable Rate Direct Purchases with Union Bank, N.A. in a privately placed transaction. The principal of the Series 2012B Bonds is payable in annual installments ranging from \$1,700 to \$5,160 between March 2013 and March 2032. The interest on the Series 2012B Bonds is currently payable monthly, as the Series 2012B Bonds are currently held in the Index Rate Mode (and the Health System has currently elected to use the one-month LIBOR Index Interest Period in connection with such Index Rate Mode). At the conclusion of the initial Index Rate Mode (i.e. July 30, 2019), and at the option of the Health System, the Series 2012B Bonds may be converted to the Daily Mode, the Weekly Mode, the Adjustable Long Mode, the Commercial Paper Mode, another Index Rate Mode, or the Fixed Mode upon compliance with certain conditions set forth in the bond documents. The interest payment dates, interest calculation methods, and terms, if any, upon which each Series 2012B Bond may or must be tendered for purchase in each Mode, are more fully set forth in the bond documents. The average interest rate (which includes amortization of costs of issuance) during 2014 was 1.14%.

The Series 2012B Bonds are subject to redemption prior to maturity at the option of the Health System in accordance with the terms set forth in the bond documents. During the initial Index Rate Mode, the Series 2012B Bonds are subject to optional redemption by the Health System on any business day upon payment of all fees required by the Index Rate Agreement.

Series 2012C—Represents Variable Rate Direct Purchases with Wells Fargo, N.A. in a privately placed transaction. The Series 2012C Bonds principal is payable in annual payments ranging from \$11,820 to \$13,195, beginning November 2038 through November 2043. The Series 2012C Bonds interest is payable monthly, as the Series 2012C Bonds are currently held in the Index Rate Mode (with interest being calculated using the SIFMA Index Rate). At the conclusion of the initial Index Rate Mode (i.e. October 1, 2018), and at the option of the Health System, the Series 2012C Bonds may be converted to the Daily Mode, the Weekly Mode, the Adjustable Long Mode, the Commercial Paper Mode, another Index Rate Mode, or the Fixed Mode upon compliance with certain conditions set forth in the bond documents. The interest payments, interest calculations methods, and terms, if any, upon which each Series 2012C Bond may or must be tendered for purchase in each Mode are more fully set forth in the bond documents. The average interest rate (which includes amortization of costs of issuance) during 2014 was .77%.

The Series 2012C Bonds are subject to redemption prior to maturity at the option of the Health System in accordance with the terms set forth in the bond documents. During the initial Index Rate Mode, the Series 2012C Bonds are subject to optional redemption on any business day upon payment of the principle amount thereof, accrued interest thereon, and all fees required by the Index Rate Agreement.

Series 2012D—Represents Variable Rate Direct Purchases with Wells Fargo Municipal Capital Strategies, LLC in a privately placed transaction. The Series 2012D Bonds principal is payable in annual

payments ranging from \$11,810 to \$13,220, beginning November 2038 through November 2043. The Series 2012D Bonds interest is payable monthly, as the Series 2012D Bonds are currently held in the Index Rate Mode (with interest being calculated using the LIBOR Index Rate). At the conclusion of the initial Index Rate Mode (i.e. October 24, 2017), and at the option of the Health System, the Series 2012D Bonds may be converted to the Daily Mode, the Weekly Mode, the Adjustable Long Mode, the Commercial Paper Mode, another Index Rate Mode, or the Fixed Mode upon compliance with certain conditions set forth in the bond documents. The interest payments, interest calculations methods, and terms, if any, upon which each Series 2012D Bond may or must be tendered for purchase in each Mode are more fully set forth in the bond documents. The average interest rate (which includes amortization of costs of issuance) during 2014 was .98%.

The Series 2012D Bonds are subject to redemption prior to maturity at the option of the Health System in accordance with the terms set forth in the bond documents. During the initial Index Rate Mode, the Series 2012D Bonds are subject to optional redemption on any business day upon payment of the principle amount thereof, accrued interest thereon, and all fees required by the Index Rate Agreement.

Series 2014A—Represents Fixed Rate Revenue Bonds, payable in annual installments ranging from \$170 to \$16,080 beginning March 2016 through March 2044. The Series 2014A bonds bear interest at a fixed rate ranging from 2.00% to 5.00% per annum calculated on the basis of a 360 day year comprised of 12 30-day months and are payable on March 1 and September 1 of each year. The average interest rate (which includes amortization of costs of issuance) during 2014 was 3.17%.

The Series 2014A bonds maturing on or after March 1, 2034 are subject to redemption prior to maturity at the option of the Health System.

The Series 2000, Series 2005, Series 2008A, Series 2012A, Series 2012B, Series 2012CD and Series 2014A bonds provide, among other things, restrictions on annual debt additions that the Health System may incur. The agreements also require that sufficient fees and rates be charged so as to provide net income available for debt service, as defined, in an amount not less than 125% of the annual principal and interest due on the Bonds. For the years ended September 30, 2014 and 2013, net income available for debt service, as defined, exceeded the minimum coverage required.

Notes Payable—These notes are secured by medical office buildings and guaranteed by a third party. Principal and interest are payable on a monthly basis. Per the agreements, the notes mature in 2023. Interest is fixed at 4.25%.

In July 2011, the Health System entered into an unsecured note payable agreement with an unrelated third party for the purchase of land. The amount of the note is for \$350 payable over three years. Interest is fixed at 5.0%. As of September 30, 2014, this note was paid in full.

In December 2010, the Health System entered into an unsecured note payable for the acquisition of the remaining membership interest in a joint venture. The amount of the principal balance of the note was \$3,563 with annual principal and interest payments payable over three years. The interest rate is fixed at 3.25% based on a published prime rate reported in the Wall Street Journal as of November 1, 2010. As of September 30, 2014, this note was paid in full.

Line of Credit—In September 2011, the Health System entered into an unsecured credit agreement with Key Bank, N.A. The agreement allows for borrowings up to \$60,000 and has a maturity date of September 15, 2016. In the event that principal amounts are outstanding, interest is incurred at a rate that is variable at the Prime Rate. The line of credit, among other things, contains an annual commitment fee of \$30 as well as a non-usage fee on the actual daily unborrowed portion of the principal amount available at the rate of one-fifth of 1% per annum. As of September 30, 2014, there was no outstanding balance on the line of credit.

In January 2010, the Health System entered into an unsecured credit agreement with Wells Fargo Bank, N.A. The agreement allows for borrowings up to \$7,000 and has a maturity date of August 1, 2015. The line of credit is to be utilized for working capital payments related to a cash payment program the Health System operates in connection with payments to vendors. Principal amounts are advanced as vendor payments are made, and are required to be repaid on a monthly basis. As principal is paid in full on a monthly basis, no interest costs have been incurred. In the event that principal is outstanding in excess of 30 days, interest is variable at daily three month LIBOR plus 1.75%. The outstanding balance as of September 30, 2014 and 2013 was \$4,818 and \$4,889, respectively.

Subsequent to year end, the agreement was amended to allow for borrowings up to \$8,000 under the cash payment program.

Interest Costs—During the years ended September 30, 2014 and 2013 the Health System incurred total interest costs of \$26,350 and \$25,923, respectively. During 2014 and 2013, \$1,377 and \$969, respectively, has been capitalized and is reflected as a component of property, plant, and equipment. During the years ended September 30, 2014 and 2013, the Health System made cash payments for interest of \$24,746 and \$26,077, respectively, and cash payments for bond fees of \$362 and \$700, respectively.

11. EMPLOYEE RETIREMENT PLANS

Defined Benefit Plans—The St. Luke’s Regional Medical, Ltd. Basic Pension Plan (the “SLRMC Plan”) covers substantially all eligible employees employed by the Health System (with the exception of St. Luke’s Magic Valley, Ltd. employees) on or before December 31, 1994. The SLRMC Plan was amended and restated effective January 1, 1995, to exclude employees hired on or after that date from participation in the SLRMC Plan; however, the SLRMC Plan remains in effect for those participants

who qualify and were hired prior to January 1, 1995. Employees eligible for the SLRMC Plan with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65), or after obtaining age 62 with 25 years of service, equal to a percentage of their highest five-year average annual compensation, not to exceed a certain maximum. The Health System makes annual contributions to the SLRMC Plan as necessary.

The St. Luke's Magic Valley Regional Medical Center, Ltd. Plan (the "SLMVRMC Plan") covers substantially all eligible St. Luke's Magic Valley Regional Medical Center, Ltd. (SLMVRMC) employees employed by SLMVRMC on or before April 1, 2005. The SLMVRMC Plan was amended and restated effective April 1, 2005, to exclude employees hired on or after that date from participation in the SLMVRMC Plan; however, the SLMVRMC Plan remains in effect for those participants whose sum of their age plus years of credited service exceed 65 or who exceeded 10 years of service as of April 1, 2005. Participants are entitled to annual pension benefits beginning at normal retirement age (65), or after obtaining age 60 with 30 years of service, equal to a calculation based on either average annual compensation or credited service. The Health System makes annual contributions to the SLMVRMC Plan as necessary.

The following table sets forth the SLRMC Plan and the SLMVRMC Plan (collectively the "Plans") funded status, amounts recognized in the Health System's consolidated financial statements and other related financial information:

Accumulated benefit obligation	125,604	46,821	172,425	172,407

Amounts recognized in unrestricted net assets related to the Plans at September 30, consist of:

	SLRMC	SLMVRMC	Total 2014	Total 2013
Prior service cost	\$ (16)	\$ -	\$ (16)	\$ (29)
Net actuarial loss	(21,022)	(14,531)	(35,553)	(42,709)

The measurement date used to determine pension benefits is September 30. Contributions to the Plans for the year ending September 30, 2015, are expected to be approximately \$7,400.

The overall investment strategy and policy has been developed based on the need to satisfy the long-term liabilities of the Plans. Risk management is accomplished through diversification across asset classes, multiple investment manager portfolios, and both general and portfolio-specific investment guidelines. The asset allocation guidelines for the Plans are as follows:

	Target SLRMC	Target SLMVRMC
Investments:		
Large-cap funds	20 %	20 %
Mid-cap funds	10	10
Small-cap funds	10	10
Non-U.S. funds	20	20
Fixed income	29	38
Other	11	2

Managers are expected to generate a total return consistent with their philosophy and outperform both their respective peer group medians and an appropriate benchmark, net of expenses, over a one-, three-, and five-year period. The investment guidelines contain categorical restrictions such as no commodities, short-sales and margin purchases; and asset class restrictions that address such things as single security or sector concentration, capitalization limits and minimum quality standards.

Expected long-term returns on the Plans' assets are estimated by asset classes, and are generally based on historical returns, volatilities and risk premiums. Based upon the Plans' asset allocation, composite return percentiles are developed upon which the Plans' expected long-term return is determined. As of September 30, 2014, the amounts and percentages of the fair value of Plans' assets are as follows:

	<u>SLRMC</u>		<u>SLMVRMC</u>	
Domestic equity	\$ 47,398	40 %	\$ 16,127	43 %
International equity	23,396	20	6,469	17
Fixed income	36,239	30	14,470	38
Other	<u>11,511</u>	<u>10</u>	<u>648</u>	<u>2</u>
Total	<u>\$ 118,544</u>	<u>100 %</u>	<u>\$ 37,714</u>	<u>100 %</u>

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid from the Plans:

	SLRMC	SLMVRMC	Total
2015	\$ 10,443	\$ 2,353	\$ 12,796
2016	10,204	2,400	12,604
2017	10,263	2,585	12,848
2018	9,906	2,717	12,623
2019	10,424	2,837	13,261
2020–2024	<u>51,587</u>	<u>15,381</u>	<u>66,968</u>
	<u>\$ 102,827</u>	<u>\$ 28,273</u>	<u>\$ 131,100</u>

Assumptions used in determining the actuarial present value of net periodic benefit cost of the Plans were as follows:

	2014	2013
Weighted average discount rate	4.90 %	3.75 %
Rate of increase in future compensation levels	2.5–4.00	2.5–4.00
Expected long-term rate of return on assets	7.00	6.50

Assumptions used in determining the actuarial present value of projected benefit obligation of the Plans were as follows:

	2014	2013
Weighted average discount rate	4.25 %	4.90 %
Rate of increase in future compensation levels	4.00	4.00

The principal cause of the change in the unfunded pension liability is the change in the discount rate at September 30, 2014 and 2013.

Supplemental Retirement Plan for Executives—The Supplemental Retirement Plan for Executives (SERP) is an unfunded retirement plan for certain executives of the Health System. The following table sets forth the funded status, amounts recognized in the Health System’s consolidated financial statements, and other SERP financial information:

	2014	2013
Projected benefit obligation for service rendered to date	\$ 18,806	\$ 16,375
Plan assets—at fair value	<u>-</u>	<u>-</u>
Funded status	<u>\$ (18,806)</u>	<u>\$ (16,375)</u>
Employer paid benefits	\$ 531	\$ 588
Accrued pension liability (noncurrent)	17,944	15,552
Accrued pension liability (current)	862	823
Change in funded status	(2,431)	(931)
Amortization of prior service cost	2	8
Amortization of net loss	669	732
Net periodic benefit cost	2,230	2,075
Accumulated benefit obligation	17,084	14,784

The measurement dates used to determine pension benefits is September 30. Expected contributions to the Plan for the year ending September 30, 2015, are expected to be approximately \$862.

Amounts recognized in unrestricted net assets related to the SERP at September 30, consist of:

	2014	2013
Prior service cost	\$ -	\$ (2)
Net actuarial loss	(7,707)	(6,974)

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid from the SERP:

	Benefit Payments
2015	\$ 862
2016	865
2017	860
2018	855
2019	849
2020–2024	<u>7,649</u>
	<u>\$ 11,940</u>

As of September 30, 2014 and 2013, the accrued pension liability is included in benefit plan liabilities.

Assumptions used in determining the actuarial present value of net periodic benefit cost were as follows:

	2014	2013
Weighted average discount rate	4.90 %	3.60 %
Rate of increase in future compensation levels	4.00	4.00

Assumptions used in determining the actuarial present value of projected benefit obligation were as follows:

	2014	2013
Weighted average discount rate	4.25 %	4.90 %
Rate of increase in future compensation levels	4.00	4.00

Defined Contribution Plan—The Health System sponsors two defined contribution plans (the “contribution plans”) that cover substantially all of its employees. The Health System’s contributions to these contribution plans are at the discretion of the Health System’s Board of Directors. Amounts contributed are allocated to participants based on individual compensation amounts, years of service, and the participant’s level of participation in tax deferred annuity programs. During 2014 and 2013, contributions to these plans were \$19,387 and \$30,768, respectively.

12. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following disclosure of the estimated fair value of financial instruments is made in accordance with the requirements of ASC 825, Financial Instruments. The Health System accounts for certain assets and liabilities at fair value or on a basis that is approximate to fair value. The estimated fair value amounts have been determined by the Health System using available market information and appropriate valuation methodologies. However, considerable judgment is necessarily required in interpreting market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Health System could realize in a current market exchange.

Level 1 inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Health System has the ability to access. The level 2 inputs of the Health System include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities

in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified or contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability. The determination to measure the asset or liability as a level 3 depends on the significance of the input to the fair value measurement.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There were no transfers of assets between any levels during the fiscal year.

Following is a description of the valuation methodologies used for the Health System's assets or liabilities measured at fair value.

Cash, Receivables, Accounts Payable, Accrued Liabilities, and Estimated Payable to Medicare and Medicaid Programs—The carrying amounts reported in the balance sheet for cash, receivables, accounts payable, accrued liabilities, and estimated payable to Medicare and Medicaid programs are a reasonable estimate of their fair value.

Assets Whose Use is Limited—These assets consist primarily of cash and cash equivalents, mutual funds, debt and equity securities, and pledges receivable. For cash and cash equivalents, pledges receivable and interest receivable, the carrying amount reported in the balance sheet approximates fair value.

For mutual funds the fair value is based on the value of the daily closing price as reported by the fund. Mutual funds held by the System are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the System are deemed to be actively traded.

For equities (common stock), the fair value is based on the value of the closing price reported on the active market on which the individual securities are traded.

For government obligations, the fair value is measured using pricing models maximizing the use of observable inputs for similar securities.

The following tables set forth by level within the fair value hierarchy a summary of the Health System's investments measured at fair value on a recurring basis as of September 30:

Fair Value of Pension Plan Assets—In addition to the types of assets listed above as held by the System, the pension plans also hold assets within limited partnerships, limited liability companies, and common collective trusts.

Limited partnerships and limited liability companies are valued at fair value based on the audited financial statements of the partnerships and the percentage ownership in the partnership. This method is an accepted practical expedient that is considered equivalent to NAV. The assets held were further considered for level of inputs used. When quoted prices are not available for identical or similar assets, real estate assets are valued under a discounted cash flow or lender survey approach that maximizes observable inputs, but includes adjustments for certain risks that may not be observable, such as such as cap & discount rates, maturities and loan to value ratios.

Common collective trusts are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, based on the hierarchy requirements for fair value guidance outlined previously, a summary of the assets of the Health System's Plans measured at fair value on a recurring basis as of September 30:

Fair Value of Debt—The interest rate on the Health System’s Variable Rate Demand Revenue Bonds is reset daily to reflect current market rates. Consequently, the carrying value approximates fair value. The carrying amount reported in the balance sheet for capital leased assets approximates its fair value.

The estimated fair value of the Fixed Rate Revenue Bonds as of September 30, 2014 and 2013 was \$595,780 and \$404,704, respectively. The fair value of debt was estimated by discounting the future cash flows using rates currently available for debt of similar terms and maturity.

The estimated fair value of the notes payable as of September 30, 2014 and 2013, was \$40,393 and \$40,349, respectively. The fair value was estimated by discounting the future cash flows using rates currently available for debt of similar terms and maturity.

The fair value estimates presented herein are based on pertinent information available to management as of September 30, 2014. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date, and current estimates of fair value may differ significantly from the amounts presented herein.

13. COMMITMENTS AND CONTINGENCIES

The Health System leases office space under operating leases, some of which contain renewal options. Rental expense on these during 2014 and 2013 were \$16,324 and \$15,579, respectively. The Health System also leases out space in medical office buildings under non-cancelable operating leases. Rental income on these leases during 2014 and 2013 were \$2,389 and \$2,501, respectively.

As of September 30, 2014, future minimum rental income and payments on these operating leases are as follows:

Years Ending September 30	Minimum Rental Revenue	Minimum Rental Payments
2015	\$ 1,234	\$ 14,242
2016	256	12,492
2017	136	11,593
2018	104	8,102
2019	10	6,760
Thereafter	<u>-</u>	<u>14,120</u>
	<u>\$ 1,740</u>	<u>\$ 67,309</u>

As of September 30, 2014 and 2013, the Health System had commitments on construction contracts and equipment purchases totaling \$4,674 and \$8,605, respectively.

The Health System maintains professional liability coverage through a “claims made” insurance policy. The policy provides coverage for claims filed within the period of the policy term. The current policy period ends December 31, 2014, and includes provisions for purchase of tail coverage in the event a new carrier is selected. The Health System also maintains reserves based on actuarial estimates provided by an independent third party for the portion of its professional liability risks, including incurred but not reported claims, for which it does not have insurance coverage. Reserves for losses and related expenses are estimated using expected loss reporting patterns and are discounted to their present value using a discount rate of 3.0%. There can be no assurance that the ultimate liability will not exceed such estimates. Adjustments to the reserves are included in results of operations in the periods when such amounts are determined.

The Health System is routinely involved in litigation matters and regulatory investigations arising in the normal course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material effect on the Health System’s future financial position, results of operations, or cash flows.

On November 12, 2012, a complaint was filed against the Health System in Idaho federal district court asserting that a planned business transaction between the Health System and an independent medical practice violated state and federal antitrust law. The suit sought money damages, attorney fees, and a preliminary and permanent injunction against the transaction. The court denied the request for a preliminary injunction, allowing the transaction to close in December of 2012, but set a trial on plaintiffs’ request for an order unwinding the transaction. On March 26, 2013, the Federal Trade Commission and the State of Idaho filed a separate complaint for a permanent injunction requiring the Health System to unwind the transaction and for attorney fees incurred by the Office of the Idaho Attorney General. The government plaintiffs asserted that the transaction violated state and federal antitrust law. The court consolidated the actions of the private and government plaintiffs.

By order dated September 24, 2013, the court dismissed the private plaintiffs’ claim for money damages. The consolidated actions were tried without a jury in September and October of 2013.

On February 28, 2014, the court entered a judgment permanently enjoining the transaction and ordering the Health System to unwind the transaction. The lower court has not ruled on motions subsequently

filed by the Idaho Attorney General and the private plaintiffs for attorney fees. On March 4, 2014, the Health System filed a notice of appeal of the lower court's judgment to the Ninth Circuit Court of Appeals. On July 25, 2014, the Ninth Circuit granted the motion of the Health System to stay the lower court's judgment and order pending the outcome of the appeal. The Ninth Circuit heard oral argument on November 19, 2014, but has not yet issued its opinion.

The Health System has antitrust insurance with coverage for defense costs, costs on appeal, and an award of attorney fees. After receipt of a letter from its insurer invoking an exclusionary clause to deny coverage in the antitrust litigation, the Health System filed a lawsuit on November 4, 2014 in Idaho federal district court alleging breach of the insurance contract and requesting a declaratory judgment that its insurer is required to pay for ongoing defense costs and any award of attorney fees granted in the antitrust litigation. The insurer has asserted counterclaims for recoupment of defense costs already reimbursed in the antitrust litigation. The Health System believes the insurer's position is without merit and will vigorously pursue coverage.

The Health System is unable to reasonably estimate the possible loss or range of loss, if any, arising from the antitrust litigation or the impact, if any, that the litigation may have on the conduct and operations of the Health System.

14. FUNCTIONAL EXPENSES

The Health System provides medical and healthcare services to residents within its geographic location. Expenses related to providing these services for the years ended September 30 are allocated as follows:

	2014	2013
Professional, nursing, and other patient care services	\$ 1,289,562	\$ 1,209,867
Fiscal and administrative support services	<u>287,106</u>	<u>267,954</u>
	<u>\$ 1,576,668</u>	<u>\$ 1,477,821</u>

15. GOODWILL AND OTHER INTANGIBLES

The Health System considered various events and circumstances when it evaluated whether its reporting unit fair values were less than their carrying value. Based on the Health System's assessment of relevant events and circumstances, the Health System has concluded that there was no impairment of goodwill for the fiscal years ended September 30, 2014 and 2013.

Other intangible assets of the Health System include covenants not to compete related to the acquisition of medical practices and are amortized over their useful lives, which typically range from five to seven years. Other intangible assets as of September 30 consist of:

	2014	2013
Covenants not to compete	\$ 46,530	\$ 46,427
Less accumulated amortization	<u>(34,811)</u>	<u>(26,999)</u>
Total other intangible assets	<u>\$ 11,719</u>	<u>\$ 19,428</u>

The Health System recorded amortization expense of \$7,812 and \$8,345 for the years ending September 30, 2014 and 2013, respectively. Expected future amortization expense related to intangible assets as of September 30 is as follows:

Years Ending September 30	Amount
2015	\$ 6,686
2016	3,029
2017	1,633
2018	<u>371</u>
	<u>\$ 11,719</u>

16. SUBSEQUENT EVENTS

Weiser Memorial Hospital—In July of 2014, the Health System executed a Letter of Intent with Weiser Valley Hospital District (the “District”) which operates Weiser Memorial Hospital (the “Hospital”), located in Weiser, Idaho, to come to agreement for the District to transfer assets of the Hospital to the Health System. The Hospital is a 25-bed critical access hospital and expands the Health System’s presence within Western Idaho. The agreement is expected to involve no cash payments other than pre-closing and post-closing legal, accounting and other costs associated with the transaction. The Health System would agree to deliver health services on behalf of the district, assume all assets and obligations of the Hospital as of April 1, 2015.

Idaho Elks Rehabilitation Hospital, Inc. (“Elks”)—In October 2014 the Health System executed an agreement to purchase equipment, inventory and other assets and to lease facilities from Elks. The agreement outlines for the Health System to further develop and expand inpatient and outpatient rehabilitation services within the Health System’s service areas. This includes the operation of a 61-bed licensed rehabilitation hospital in Boise, Idaho. Elks will discontinue to offer rehabilitation services but continue as a charitable entity committed to supporting rehabilitation services within communities previously served. As a result of the agreement, St. Luke’s Idaho Elks Rehabilitation Services (an equally owned joint venture with Elks) (the “Joint Venture”) will wind down and cease to exist. Services formally offered by the Joint Venture will now be offered by the Health System.
