Please forward to: Frontline Staff- Intensive Care Units

Dear nurses, doctors, phlebotomists, respiratory therapists, environmental service workers, dietary helpers, radiographers, physical therapists, chaplains, and any others I have overlooked:

I am a retired RN, nursing instructor (from Texas). In my 40+ years of health care, I have worked in most departments with a focus in critical care units. My experience includes working with contagious disease from polio, AIDS, SARS, TB, etc.

I tell you this because I send abundant support to you. I can feel your feet throbbing, bladder bulging, stomach growling, back hurting, heart longing for family and loved ones at home trying to home school, concern for your own safety, and heart breaking for patients dying in your care. I could not begin to do your job!!! I keep you in my prayers daily. May God bless and protect you abundantly!!!

With sincerity,

*Kathleen*
